What's it for and where will I find it?

What will it

The Family Partnership Alliance will serve a network of parents and youth pledging to host alcohol- and drug-free gatherings whenever underage youth are present by providing a directory to open the lines of communication between families.

The Alliance directory will be a Password-protected PDF, preventing unauthorized access and/or changes.

You will be able to link to the directory from TOGETHER!'s website.

TOGETHER! staff will maintain and update the directory.
